AD Products Co

ADProductsc.com offers thousands of enclosures from industry leaders such as Adalet, Hammond, Integra and Vynckier - all at unmatched pricing. With a vast array of sizes, styles and materials such as ABS plastic, polycarbonate, fiberglass, aluminum, painted steel and stainless steel - we offer something for every project and budget.

We now offer the Premier Series, the newest line of fiberglass enclosures from Adalet.

With non-penetrating, interchangeable hardware and unobstructed sidewalls, this family of enclosures provides rugged and reliable performance.

The unique panel management system uses all enclosure space - including the inside of the cover!

In addition to enclosures, we offer accessories to complement your enclosure - precision process instrumentation, thermal management and control devices.

Needed something yesterday? Most items available for immediate shipment. Custom and modified enclosures are also available.

Allied Moulded Products, Inc.

Founded in 1958, Allied Moulded has 50 years of service molding fiberglass reinforced materials. Allied Moulded is well established within the electrical industry as a quality manufacturer of nonmetallic electrical products.

Allied Moulded manufactures a full line of NEMA Type 4X fiberglass enclosures offering all the advantages of non-metallic materials including: increased strength, reduced weight, corrosion resistance, non-conductivity, cost savings and ease of installation. These enclosures have been put to the test in hundreds of demanding applications in dozens of industries worldwide. Our commitment to quality and innovation is well known throughout the electrical industry. For more information please contact Allied Moulded Products, Inc.

Equipto Electronics

Equipto Electronics Corporation, Packaging Solutions for Electronics

Equipto Electronics Corporation is a leading innovator and supplier of standard and custom designed packaging for electronics. Some ways the company assists customers in solving their packaging problems include:

- One of the largest and most experienced teams of electronics' packaging design engineers who consult by phone, e-mail and fax at no charge.
- Reproducible engineering drawings delivered electronically.
- Multiple lines so extensive customers can usually find exactly what they need without customization.
- Cabinets that meet earthquake, EMI/RFI, FCC, Military (Mil Std 461, 167, 810, 901), TEMPEST, EMP AND EUROPEAN EMC requirements.
- Hundreds of accessories in thousands of sizes.
- ISO Certification.
- Express 5-Day Shipping.
- Experienced customer service people and factory-trained sales representatives.

ENCLOSURES

Magnetic Shield Corporation

For decades, our engineering and manufacturing teams have provided low-frequency electromagnetic shielding for sensitive electrical/electronics. Equipment designers and engineers face EMI in almost every application. Today, we are widely recognized as a World-Class supplier of magnetic shields, and the leading distributor of specialized shielding materials such as MUMETAL®, CO-NETIC® and NETIC® -- the most widely specified materials for magnetic shielding applications. Our customer base reaches technical professionals around the globe. We support all industries that rely on electrical/electronic equipment and controls. Our experimental Lab-Kit is considered by engineers, designers, and R&D professionals as the first step in shield sampling, test and validation. Theory is one thing, practicality is another. Our Lab-Kit is a practical approach to affordable assurance (available at www.magnetic-shield.com). **"THE PREFERRED SOURCE" for more than 67 years...**

Integra Enclosures

Integra's enclosure is not like anyone else's, our superior design, including our use of polycarbonate material, provides an enclosure that is durable, seals tight, supports easy component installation, and looks great.

Integra also maintains an extensive, on hand inventory to support your delivery.

Superior design, fast shipment, and competitive pricing, are three benefits that make Integra Enclosures a smart choice for your electrical and telecommunication enclosure needs.

Emcor Enclosures

Emcor Enclosures
Simply your best choice for quality electronic enclosures!

With five different standard product lines, Emcor offers an electronic enclosure solution for nearly any application. All Emcor products are fully welded for exceptional strength and rigidity. Emcor enclosures are available in many standard configurations, modified standard products or complete custom enclosures to meet your specific requirements.

We serve a wide variety of markets including security, test and measurement, information technology, telecom, datacom, military, process control, network operations, call centers, and more.

To find out which Emcor products best meet your needs, please call us at 507-287-3535 or visit our website at www.emcorenclosures.com
